

It is always advisable to explore potential job opportunities before coming to Lithuania, so to be fully aware of specific demands of the labour market and what kind of specialists have the best chance of employment.

There are several sites that post job openings in various sectors.

Website “[Work In Lithuania](#)” provides job offers in international companies along with their short description, number of employees and company’s establishment date in Lithuania.

Lithuania's most popular job sites:

- [Work in Lithuania](#)
- [CV online](#)
- [CV market](#)
- [CV bankas](#)
- [Voodoosales](#)
- [Start up CV](#)
- [CV.lt](#)
- [Scobo](#)

Websites above are well-known and all have English interfaces, but most of the job descriptions are in Lithuanian, thus extra translation will be necessary. Most of these sites provide the opportunity to upload a CV for employers to see and contact you directly (tips on how to write a CV and CV templates are provided on the [Europass website](#)).

You could also contact one of the main **employment agencies** who cooperate with large companies in Lithuania:

- [Alliance for Recruitment](#)
- [Manpower](#)
- [Strategic Staffing Solutions](#)
- [Simplika](#)
- [Biuro](#)
- [Info](#)
- [IT-darbas \(IT sector\)](#)
- [Headex](#)

EU citizens also have an opportunity to use the services of **EURES** - a cooperation network designed to facilitate the free movement of workers within the EU/EEA member states. EURES advisers will provide information on the labour market, employment and training opportunities, recognition of qualifications and other relevant information. Visit [EURES website](#) to read more about their services.
