

One of the major obstacles that the new arrivals encounter is not being able to speak the language. It is quite difficult to learn the Lithuanian language; however, it is worth learning it if one wants to stay in Lithuania for a longer time. Several institutions organize courses in the Lithuanian language, and most of them are in Vilnius.

## Online classes

One can get initial knowledge of the Lithuanian language while learning on the **Internet**, for example, **on the websites [loescen.com](https://loescen.com), [surfacelanguages.com](https://surfacelanguages.com) or [flyent.online](https://flyent.online).**

There is also a free and interactive tool [Let's be Friends](#) which teaches to read, listen, understand, speak and write in Lithuanian. The course has been developed to work with a teacher who himself / herself starts a group for registered students, makes virtual appointments, communicates directly, and checks open-type tasks.

## Individual Lithuanian language courses

Lithuanian language may also be learned individually with private teachers. In addition, most universities which have international programs, offer Lithuanian language courses as well offer Lithuanian language courses for foreigners.

## Language Exchange

The Pancake restaurant with a culinary and social mission '[Pirmas blynas](#)' (Vilnius) holds a language exchange every Saturday morning at 10:30 AM. It is a good opportunity to learn and practice various languages, including Lithuanian.

## Competence voucher

It is a non-refundable grant that allows enterprises to raise the qualification and build the capacity of their employees. This grant allows employee to choose a training program (there are a number of different programs, including Lithuanian language courses). If you wish to participate at the program you should contact your HR or team leader and ask for approval. For more information please see the [website of Enterprise Lithuania](#).
